Ten years ago, the UCLA Chicano Studies Research Center hosted the first Latina/o Education Summit conference to highlight significant issues in the Latina/o educational pipeline, from K-12 to graduate school. For the past 10 years the CSRC has held this event to highlight urgent issues in the Latina/o educational pipeline that would inform research, practice, and policy by engaging discussions with faculty, administrators, students, policymakers, educators, and community members. The 2015 Summit will examine how far we have come in educational access and opportunity for Latina/o students in California—from K-12 to graduate education—since these discussions began at the first annual event. We will identify key issues and discuss the work that still lies ahead for educational success of Latina/o students.

Keynote Speaker:
Marcelo Suarez-Orozco, Wasserman Dean and Distinguished Professor of Education, Graduate School of Education & Information Studies, UCLA
