

Recent highlights from [UCLA Newsroom](#) are sent to you most Fridays. For news delivered daily in the morning, [subscribe to UCLA Today](#).

[UCLA to celebrate Jackie Robinson's 100th birthday](#)

Events include a panel about athletes, social justice and activism; a jazz concert featuring Arturo Sandoval; and ceremonies at a basketball game.

[Seeing double could help resolve dispute about how fast the universe is expanding](#)

At the heart of the dispute is the Hubble constant, a number that relates distances to the redshifts of galaxies — the amount that light is stretched as it travels to Earth.

[Increasing murder rate is erasing gains in life expectancy among Mexican men, UCLA research reports](#)

New study might actually underestimate the country's homicide rate because many murders may be unreported or attributed to other causes of death.

[Trip to D.C. with Chancellor Block helps UCLA students forge new relationships](#)

Undergraduates also met with alumni to get a behind-the-scenes look at how the nation's capital works.

[When delayed gratification backfires](#)

UCLA Anderson Review: A self-imposed quest for a perfect time to enjoy an indulgence often means missing out on actually having a good experience, research finds.

[Simulated grad school classes offer students sample of rigors of pursuing advanced degree](#)

BruinNext helps UCLA undergraduates — especially transfer students — who are unsure about applying to graduate or professional school, learn more.

[This week's news and feature stories on UCLA Newsroom](#)

Faculty and Staff News

[Chicano Studies Research Center wins diversity award](#)

The faculty and staff of the center were recognized for scholarship, public programs, community partnerships and policy-related research.
